Department Initiatives:

Data Driven Approach to Crime and Traffic Safety (DDACTS): Based on the last reporting period’s crime data map, enhanced enforcement was directed into the southwest quadrant of the city. The identifiable “HOT SPOT” for this reporting period is the northeast quadrant of the city. Officers are being directed to focus their patrol time in this quadrant.

School Safety and Security Detail: SPD emphasizes school safety by providing continued assistance to Shoshone Schools while the school season is in session. We are taking a pro-active approach by reducing crimes and accidents caused by inattentive drivers. As officers monitor the school during the busiest times we can react to potential safety concerns quickly and remedy situations without delayed response times. Officers conducted 17 Hours of school security detail during the month of November and observed minor traffic violations and did not observed misdemeanor or felony crimes or suspicious activity during the detail.

ITD/OHS Emphasis Patrol: SPD participated in the Idaho Transportation Department, Office of Highway Impaired Driving Mobilization from March 10-20. During the mobilization, SPD increased traffic related stops from 10 to 19 stops with 9 increased traffic stops during the mobilization period. Out of the 19 stops there was 1 stop made by Officer Larry Green, which resulted in an arrest for Possession of Controlled Substances, Possession of Paraphernalia, Open Container, Furnishing Alcohol to a Minor, and Minor Consumption. Officer Green greatly reduced the risk of an accident which could have resulted in serious injury or death. SPD’s pro-active approach and participation in the ITD/OHS Emphasis Patrol greatly impacts the community through educating drivers and keeping dangerous off the roads.
